

Fibre Optic Cabling

Connectix 4000 Series Vertical Fibre Outlet

Product Overview

The Connectix 4000 series offers Fibre outlets in a high density package. The 4000 series is quick and easy to install, just attach the base plate, plug in your SC/APC connectors and install the cover. This model offers 2 x SC/APC Simplex connections or 2 x LC/APC duplex connections, 3 x fibre management spools with a 20mm diameter. A single splice holder with an integrated holder for a fibre splitter. The 4000 Series outlets have been designed for direct wall mounting with top entry mini trunking. In addition, they fit on a standard backbox to provide maximum mounting flexibility. The position of the adaptors on the vertical outlet allows for a compact installation without protruding leads.

Features & Benefits

- High Density, single gang unit
- Available in 2 port version
- No protruding leads
- Designed for direct wall mounting
- Custom logo service available
