

Fibre Optic Epoxy Termination Tool Kit

The Fibre Optic Epoxy Termination Tool Kit offers all the general tools required for the preparation of fibre cable being used for the connection to LC, SC or ST ends. A great solution for both when on-the-go or needing to terminate in house. Everything fits neatly inside the sturdy carry case giving great storage for all the equipment supplied and easy to fit everything back in its place after being used.

Although this kit isn't provided with any connectors, we have a wide selection of all fibre connectors in stock that can be purchased separately if required.
