

Category 6a RJ45 S/FTP Patch Leads

Connectix Cat 6a S/FTP Patch Leads are designed to complete the Cat 6a Channel, providing support for extremely high-speed applications including 10GBASE-T.

The Patch Leads are made from shielded Cat 6a cable and are terminated using high performance modular plugs. The fully shielded cable increases signal isolation and helps to prevent contaminant

noise from entering the lead. These S/FTP patch leads are complementary to the Connectix Cat 6a Cabling System and will provide support for future bandwidth-hungry applications.

Leads are available from stock in lengths from 1 to 5 metres, and in a number of different colours.

Features & Benefits

- Independently tested to Cat 6a and 10GBASE-T channel performance standards
- Conform to ANSI/TIA 568-C Category 6a
- Uses fully shielded cable
- Available from stock in lengths from 1 to 5 metres

Product Specifications	
Plug	High performance shielded modular plug
Cable	LSZH Category 6a shielded cable
Cable Shield	Overall braid and individually foiled pairs
Wiring Specification	Straight Through
Boot	Low profile with latch protection
Conforms To	ANSI/TIA 568-C Category 6a
