

Your ports and cables where you want them

Today's networks have increasing numbers of devices attached to them, both wired and wireless. As wired devices proliferate, it can be difficult to easily and neatly place networked ports where you want them.

NETGEAR ProSAFE Click Switches™ address this issue with an innovative and thoughtful hardware design, including the flexible 1-2-3-4 Click mounting system. The new ProSAFE Click Switches are Gigabit Ethernet switches with an industry-first, bracket mounting system for easy installation. Available in either 8- or 16-Gigabit port configurations, their slim design and internal power supplies enables you to organize wires, secure cables, eliminate bulky power adapters, and improve the overall appearance of wiring closets, training facilities, lab benches, conference rooms, and entertainment centers that require multiple connected devices.

Highlights

- Unique 1-2-3-4 Click mounting system for flexible placement options
 - Cable management with provided retaining strap
 - Multi-directional power cable to optimize placement
 - Internal power supply to eliminate power brick
 - 2 USB ports for quick access to charging tablets or smartphones (GSS108E only)
 - Turn LED lights ON/OFF for non-distracting operation in dark environments such as next to a TV
- NETGEAR Plus Switch features including:
- VLAN support for traffic segmentation
 - Quality of Service (QoS) for traffic prioritization
 - Auto "denial-of-service" (DoS) prevention (GSS116E only)
 - Troubleshoot connection issues via cable test
 - Loop detection and broadcast storm controls
 - IGMP snooping v1, v2 and v3 support for multicast optimization
 - Rate limiting for better bandwidth allocation
 - Port mirroring for network monitoring
 - Port trunking for bigger uplink bandwidth. (GSS116E only)
- No fan for silent operation
 - Reinforced plastic (GSS108E) or metal case (GSS116E) for rugged durability
 - Jumbo frame support
 - Energy Efficient Ethernet (IEEE802.3az) support for maximum power savings
 - LIFETIME Hardware Warranty*
 - LIFETIME 24/7 Technical Support
 - LIFETIME Next Business Day Replacement

Flexible 1-2-3-4 Click Mounting System

The innovative 1-2-3-4 mounting system gives you the flexibility to place the Click Switch in locations where other switches will not go. Whether it's directly on a wall, strapped to a pole, under the meeting table in a conference room or in a server closet, vertical or horizontal, the Click Switch's unique mounting system allow you to control exactly how your ports and cables are deployed.

Flexible 1-2-3-4 Mounting System

1 Vertical/side mount

3 Horizontal/side mount

Easy to Install

Simply click into the bracket

Cable Management

Strap cables to the bracket

2 Vertical/rear mount

4 Horizontal/rear mount

Two USB ports for charging tablets or phones

Strap the cables to the wall

Features and Benefits

Hardware Features	Benefits
All Gigabit models	Making Click Switch an ideal upgrade for SMB networks combining management capability with higher speed and better performance
Click Mounting System	Flexible deployment for either desktop placement, undertable mount as well as wall mount
Software Features	Benefits
VLAN	Segment network into smaller groups for more secure and efficient use of network resources
QoS	For optimized network performance and better delivery of mission-critical traffic such as voice and video
IGMP Snooping	For improved network efficiency on delivering multicast traffic
Port Trunking	Build up a bigger bandwidth to support aggregated uplink traffic (GSS116E only)
Port Mirroring	For better and quicker network diagnostics and troubleshooting
Cable Test	Easily identify bad Ethernet cables

Target Application

SMB Network Application

Why the NETGEAR Click Switch is the ideal upgrade from Unmanaged Switches for SMB networks:

- Configurable with simple set-up
- Build multiple user groups
- Prioritize voice and video traffic
- Monitor and troubleshoot
